INVORA — Billing App Explainer (30s)

Sample production document · fictional brand, made as a design sample · finished video delivered separately

What you approve before I animate a single frame

This is the same two-document approval step included in every explainer package: a written script and a scene-by-scene storyboard. You sign off on both before any animation work starts, so nothing at delivery is a surprise.

Script

Scene	Time	On-screen headline	Voice-over
1	0:00	STILL CHASING PAPER INVOICES?	Stacks of paper invoices. Half of them still unpaid.
2	0:05	PAID LATE. EVERY MONTH.	You chase every one by hand — and still get paid late.
3	0:10	EVERY INVOICE. ONE SCREEN.	Invora puts every invoice in one place, on your phone.
4	0:14	ONE TAP. THEY GET REMINDED.	One tap sends the reminder. Invora tracks who pays.
5	0:19	PAID ON TIME.	Money lands on time. You get your evenings back.
6	0:25	INVORA — GET PAID ON TIME	Invora. Billing that chases, so you don't.

6 scenes · one consistent character across every scene · English voice-over · two on-screen app UI moments (invoice list, payment received) · delivered in 16:9 and a re-composed 9:16 cut (not a crop) · 1080p.
